

“WE STARTED WITH A SIMPLE GOAL: TO HELP PEOPLE REGAIN CONTROL OVER THEIR LIVING SPACES AND FEEL AT PEACE IN THEIR HOMES.”

— Courtney Colleary and Nicole Perrault, Co-Owners of The Organized Haus

WHILE ELEGANT FURNISHINGS AND DETAILS BRING BEAUTY TO A SPACE, EXPERT ORGANIZATION ELEVATES THE EVERYDAY AND INSPIRES THE WAY PEOPLE LIVE.

“Our work is so much more than aesthetics,” says Nicole Perrault. “It’s about creating spaces that are functional, organized and highly personal where our clients can relax, recharge and live their best lives.” As Co-Owners of The Organized Haus, Perrault and her friend and business partner Courtney Colleary have dedicated themselves to a panoramic approach to organization that enhances their clients’ lifestyles by addressing every aspect of daily living. “Although we launched The Organized Haus just last year, we’ve quickly grown from a small Orange County-based team with a passion for organization into a comprehensive, full-service firm that provides custom-tailored solutions that fit each client’s unique wants and needs,” Colleary shares. What are the services they’ve added to their impressive roster since launching in 2023? “We’ve expanded our offerings to include everything from decluttering to pack and move coordination to space planning and customized storage solutions,” Perrault adds. “With that said, as we’ve continued to grow over the last year, we’ve remained committed to our core values of empathy, efficiency and excellence.”

LIVE, LEARN + LEAD

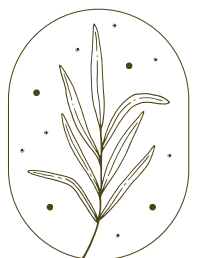

“As a person who didn’t always lead a structured life, discovering the power a well-organized space could have on my day-to-day was truly eye opening,” Colleary shares. “And when I considered how important mental and spiritual health are in today’s fast-paced world, I realized that I wanted to help others achieve the same peace and clarity I’d found.” How did this lead to the founding of The Organized Haus? “Nicole and I had been friends for about 15 years when I approached her with the idea of channeling this passion into a career, so we decided then and there to combine our organizational skills, talent and expertise, and our partnership and firm were born.”

Left Cookware as elegant as this deserves an equally elegant storage solution. **Top right** These walnut drawer spacers make storage a truly stylish affair. **Bottom right** Custom labeled canisters keep the cook informed and inspired. **Opposite** This beautifully organized storage area is the ideal place for the family chef to curate ingredients or for children to grab an after-school snack.

A MEANINGFUL MISSION

When asked to share what it is that makes the work The Organized Haus does so important, Perrault says: “Organization is not a one-time event, but a lifelong journey. As a response to that powerful concept, we create systems that can be easily adapted, transformed and maintained as our clients’ lives evolve. Furthermore, we’ve dedicated ourselves to supporting our clients, not just during the initial planning, but throughout their lives. Whether it’s a small project, a ground-up new build or a complete renovation, our team is here to help each client achieve lasting peace, order and tranquility in their homes and in their lives.”
